KR3000 SERIES

GRAPHIC RECORDER

KR3000 series are network-compatible paperless recorders with high performance and high operating function employed high visibility 12.1" TFT color LCD display and touch panel operation system. High speed of sampling rate 100ms for all points and high accuracy of ±0.1% were realized, and measured data is stored into internal memory and maximum 8GB compact flash card (CF card).

As it can be monitored by a web browser display on several computers on intranet or internet, FTP transfer of data file and E-mail notification are also available.

Large sized 12.1"TFT color LCD display

- Large-sized high visibility display with various display functions. Real time/historical trend screen, bar-graph screen, data screen are selectable for various applications.
- Combination display for selected 4 screens is available. It is easy to switch to individual screen by touching panel.

Large capacity of data memory and various recording method

- Compact flash card (CF card) slot is equipped as standard external memory. Large capacity storage of maximum 8GB is available.
- Various data storing methods are selectable such as schedule programming by time of day and time of date, recording startup by external signal and event, and data logging of before and after trigger points for alarm.

Multi points recording with high speed/high accuracy

- High-speed recording of approximately 100ms for all points and high accuracy of ±0.1% were realized. Stable measuring and recording are possible with high speed.
- High withstand voltage of 1000V AC between input channels. (Except resistance thermometer input)

Easy operating and programming without manuals

- Easy operating by dedicated keys for each function and touch panel.
- · Various functions such as scrolling of real time trend and historical trend by panel touching are available.
- USB port is prepared in front compartment. Setting file and data file are stored in USB memory stick.

Writing comments on screen

· Comments can be written on screen by a stylus pen.

Setup and display of CHINO controllers

Parameter setting and recording/displaying of setting/measuring value by connecting maximum 16 units of CHINO controllers to low-order communications (option)

LAN network capability

Various networked environment such as remote monitoring by browser, FTP server, FTP client and E-mail notification are applied as Ethernet is equipped as standard.

Analyzing/data acquisition application software (option)

It is easy to replay and edit the recorded data file. Replay display has various mode of vertical/horizontal trend, circular trend, and also has wave-analyzing and marking by using the cursor.

Custom graphic screen for per each applications (NEW)

By using optional custom graphic screen function, it can display the graphic screen which the user created by PC software KR Screen Designer (optional). Create letters, rectangle, oval, line, etc by drawing tool and allocate KR measuring data while making the background by JPEG or other images. By lower communication, controller SV, MV, PID can also be changed. Register up to 5 screens and its screens are switchable.

MODELS

KR31 _ _ - _ _ _ _ _ _ _ _ _

Measuring points/sampling rate*

20: 12 points/100ms

40: 24 points/100ms

60: 36 points/100ms

80: 48 points/100ms

21: 12 points/1s

41: 24 points/1s

61: 36 points/1s 81: 48 points/1s

Communications interface (option)

N: None

R: High order (RS232C)

S: High/Low order (RS422A/RS485)

Carrying handle and feet (option)

A : None

T: With carrying handle and feet

Digital input/ alarm output (option)

0: None

1: Alarm output 12 points (a contact)

2: Alarm output 6 points (c contact)

3: Alarm output 24 points (a contact)

4: Alarm output 12 points (c contact)

5: Alarm output 12 points (a contact)

+ alarm output 6 points (c contact)

Others (option)

(Blank): None

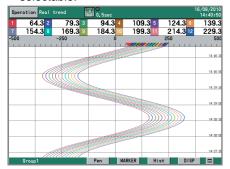

-1NN: Custom graphic screen

SCREENS

Real-time trend screen

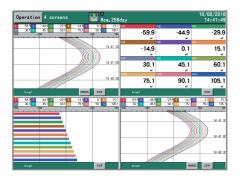

Displays data (measured and virtual) of selected group.

Vertical trend and horizontal trend selectable.

4 separate screen

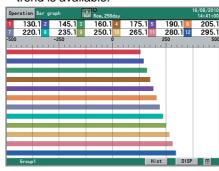

Switchable from displayed 4 screens to individual screen by touch panel.

Bar-graph screen

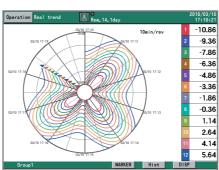

Displays data (measured and virtual) of selected group.

Combination display with real-time trend is available.

Circular trend screen

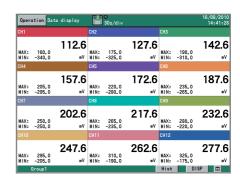

High-resolution color and easy to read curve.

Data screen

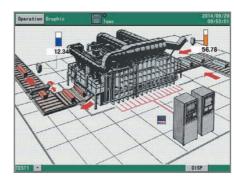

Displays data (measured and virtual) of selected group.

Simultaneous display of alarm status.

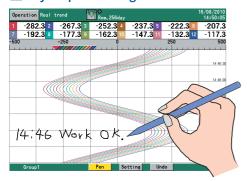

Graphic screen

Enable to create custom display for each user*.

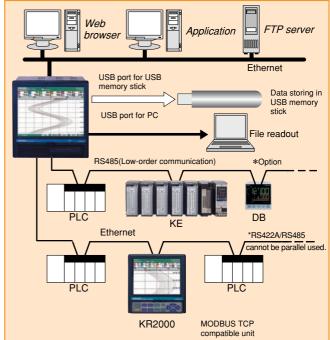

*Graphic screen feature is provided optionally. BMP image has to be prepared by customer.

Stylus pen writing

Connectivity

INPUT SPECIFICATIONS

Measuring points:

Input types

12 points, 24 points, 36 points and 48 points Universal DC voltage

- ±13.8mV, ±27.6mV, ±69.0mV ±200mV, ±500mV, ±2V ±5V*, ±10V*, ±20V*, ±50V* (*with built-in voltage divider)

DC current --- With external shunt resistor (sold separately)
Thermocouple --- B, R, S, K, E, J, T, N, PtRh40-PtRh20,
W-WRe26, WRe5-WRe26, PlatineIII, NiMo-Ni,

CR-AuFe, U, L
Resistance thermometer --- Pt100, JPt100, Pt50, Pt-Co Refer to the table of measuring range and accuracy ratings Accuracy ratings

Reference junction compensation accuracy:

K, E, J, T, N, PlatinellI--- ±0.5°C or less
R, S, W-WRe26, WRe5-WRe26, NiMo-Ni, CR-AuFe,

U, L -- ±1.0 °C or less
100ms -- Approximately 100ms for all points
1s --- Approximately 300ms for all points Sampling rate

Disconnection of input signal is detected on thermocouple and resistance thermometer input. UP/DOWN/DISABLE is selectable Burnout:

for each input

Scaling: Range/scale is selectable when DC voltage/current is

programmed FIR filter

Digital filter: Allowable signal source resistance

Irce resistance:
Thermocouple input (burnout disable)/
DC voltage input (±2V or less) --- $1 k\Omega$ or less
DC voltage input (±5V or more) --- $10 k\Omega$ or less
Resistance thermometer --- Per wire $10 k\Omega$ or less
(same resistance for 3 wires)

DC voltage, thermocouple input --- Approximately $1M\Omega$ Input resistance

DC voltage input (±2V or less) --- ±10VDC DC voltage input (±5V to ±50V) --- ±60VDC Thermocouple input (with burnout)/ Resistance thermometer input --- ±6VDC

Maximum common mode voltage: 30V AC

Dielectric strength between channels: 1000V AC or more between each channel

(High strength semiconductor relay used)

(B terminal of resistance thermometer is shorted inside between

channels.)
Common mode rejection ratio:
120dB or more (50 or 60Hz)
Series mode rejection ratio:
50dB or more (50 or 60Hz)

RECORDING SPECIFICATIONS

Memory for history: Additional memory:

136MB
CF card (Up to 8GB)
128MB standard attached, Apacer Technology made recommended
USB memory stick (Up to 8GB)
Not all USB memory stick allowable

Recording cycle:

Not all USB memory stick allowable
100, 200, 500ms
1, 2, 3, 5, 10, 15, 20, 30s
1, 2, 3, 5, 10, 15, 20, 30, 60min
Measured data --- File name (group name), time of day, month and year of recording start, tag, measured data, alarm status/types and marker text
Setting parameter
Rinary/CSV type Logging data:

Storing types: Storing methods:

Setting parameter
Binary/CSV type
Manual start/stop (dedicated key and panel touching operation)
Schedule (designation for time of day and date)
Trigger signal (alarm event, digital input)
Data logging of before and after trigger points
* Pre-trigger is selectable
Measuring numbers of pre-trigger --- Max 950 data
6 groups of 56 points/group can be programmed
(Up to Total of 128 points)

Recording group:

(Up to Total of 128 points)								
When 12 channels recorded in sampling mode (real data).								
Recording cycle	128MB	256MB	512MB	1GB	2GB			
0.1 sec	3.16 days	6.32 days	12.6 days	25.3 days	50.6 days			
1sec	31.6 days	63.2 days	126 days	253 days	1.4 yrs			
60 sec	5.2 yrs	10 yrs	21 yrs	42 yrs	83 yrs			
When 24 channels recorded in sampling mode (real data).								
Recording cycle	128MB	256MB	512MB	1GB	2GB			
0.1 sec	1.58 days	3.16 days	6.32 days	12.6 days	25.3 days			
1sec	15.8 days	31.6 days	63.2 days	126 days	253 yrs			
60 sec	2.6 yrs	5.2 yrs	10 yrs	21 yrs	42 yrs			
When 36 channels recorded in sampling mode (real data).								
Recording cycle	128MB	256MB	512MB	1GB	2GB			
0.1 sec	1.05 days				16.9 days			
1sec	10.5 days	21.1 days	42.0 days	84.3 days	168 days			
60 sec	1.7 yrs	3.3 yrs	7 yrs	14 yrs	27 yrs			
When 48 channels recorded in sampling mode (real data).								
Recording cycle	128MB	256MB	512MB	1GB	2GB			
0.1 sec	18.9 days	1.58 days	3.16 days	6.32 days	12.6 days			
1sec	7.9 days	15.8 days	31.6 days	63.2 days	126 yrs			
60 sec	1.3 yrs	2.6 yrs	5.2 yrs	10 yrs	21 yrs			

COMPUTATION SPECIFICATIONS

Computation points: Maximum 128 points Computation cycle: 100ms for all points Computation types: Arithmetic operations

Comparison operations --

Logical operations ---

Addition, subtraction, multiplication, division, remainder, exponential Equality, inequality, great, less, equality/great, equality/less AND, OR, XOR, NOT

General functions ---Round-up, round-down, absolute

value, square root, exponent of e, natural logarithm, common logarithm Analog integration, digital integration

Measured data computation calculated data computation moving average, previous data, first

order lag filter
Dew point, relative humidity, F-value wind direction, 16 direction display, Others ---

increment per time (increment per set

unit time),

remaining amount of CFcard, linearization table, data communications input

ALARM SPECIFICATIONS

Setups: Up to 4 alarms can be programmed per channel

Integration operations ---

Channel data operations

Upper limit, lower limit, differential upper limit, differential lower limit (deadband is selectable), abnormal data
Setup range of alarm delay --- 1 to 3600 seconds
AND/OR selectable Alarm types:

Delay function: Alarm settings:

Refer to option specification Alarm outputs:

DISPLAY SPECIFICATIONS

12.1" TFT color LCD Display: Display types:

Measured data display (Trend screen, Data screen, Bar-graph screen)

Historical trend display (simultaneous display with Real-time trend is available)

Information display (alarm display, marker list, file list)

Setting screen (alarm, computation, memory, system, maintenance,

communication, etc.)
48 colors selectable

Display screen--- 6 screens (6 groups)
Display points --- Maximum 56 points/screen Time axis direction --- Vertical or horizontal Line width --- 1 to 5 dot selectable

Scale display --- 4 scales
Tag/data display --- Show/hide selectable

Marker display
Display screen --- 6 screens (6 groups) Data screen:

Display points --- Maximum 56 points/screen
Display contents --- Measured value, channel/tag, unit, alarm

status

48 colors selectable Bargraph screen:

Display screen --- 6 screens (6 groups)
Display points --- Maximum 56 points/screen Display direction --- Vertical or horizontal Scale display --- 1 scale

Alarm display (alarm activation/released history display) Information display:

Marker list

File list (group data file list display)
Unit information (Model, serial no., option, etc.)
Auto/manual OFF function

LCD back light: Brightness --- 4 levels adjustment

*The LCD display may contain some pixels that always or never illuminate, and the brightness of some areas of the display may appear uneven. There are typical LCD performance characteristics and do not constitute malfunction

DIRECT WRITING SPECIFICATION

Storing in recording file of internal/external memory External memory file available when recording data is stored as Storage:

binary type

Line width: 10 phases Color: 16 colors

Drawing screen: Real time trend, historical trend

Maximum drawing points:

8000 points/file*

COMMUNICATION FUNCTIONS

Network

Trend screen:

Communication type:

Ethernet (10BASE-T/100BASE-TX)
Data file can be read from the network computer

FTP server: FTP client:

Transfer a data file to a network server
The time can be synchronized to the time of SNTP server
Conformed to HTTP1.0 --- Display the alarm, information of
maintenance by browser software (InternetExplorer5.0 or later, SNTP client: Web server:

NetScape6.0 or later, Opera7 or later)

User's ID and password registration available F-Mail:

E-Mail notification at specified time for alarm activation Report data at specified time is selectable from all registered

Corresponds to SSL and TLS.

Notification address --- Maximum 8 contacts
MODBUS TCP: Read and write the data of compatibles units.

USB Communications

Communication type

USB2.0 (full speed), host function

USB memory stick is used as external memory Some USB memory stick cannot be used.

PROGRAMMING/OPERATION

Touch panel/dedicated key
HOME, MENU, DISP, MARKER, SCROLL, CURSOR, START,
STOP, DIRECTION keys, ENTER, ESC
Simple recording settings --- Common setting to all channels
Parameter programming for all channels together, recording
cycle, selection settings
Input/computation programming --- Input parameter,
computation parameter Operation method: Operation keys:

HOME settings:

MENU settings:

computation parameter
DISP Settings --- Data channel parameter, group parameter, common parameter (combination display, trend

vertical/horizontal)

Alarm settings
File settings (6 individual files) --- Storing method settings

Marker text settings
System settings --- Communication, clock, maintenance, key lock, password, screen, etc.
Operating screen selection --- Trend, data, bar-graph, historical trend, alarm display, maker list
Display selection on each screen --- Group 1 to 6 selectable

DISP operations:

GENERAL SPECIFICATIONS

Rated power voltage: 100 to 240V AC (universal power supply) 50/60Hz Maximum power consumption: 65VA

65VA
Reference operating condition:
Ambient temperature --- 21 to 25°C,
Ambient humidity --- 45 to 65%RH
Power voltage --- 100V AC±1.0%
Power frequency --- 50/60Hz±0.5%
Attitude --- Left/right 0°, forward/backward 0°
Warm-up time --- Longer than 30 minutes
Normal operating condition:
Ambient temperature --- 0 to 50°C
Ambient humidity --- 20 to 80%RH

Ambient temperature --- to 50 of Ambient humidity --- 20 to 80%RH
Power voltage --- 90 to 264V AC
Power frequency --- 50/60Hz±2%
Attitude --- left/right 0°, forward tilting 0°, backward tilting 0° to 20°

Transport condition (at the packed condition on shipment from our factory):

Ambient temperature --- -20 to 60°C

Ambient humidity --- 5 to 90%RH (No dew condensation)

Vibration --- 10 to 60Hz 4.9m/ S² (0.5G) or less

Impact --- 392m/S² (40G) or less

Ambient temperature --- -20 to 60°C

Ambient humidity --- 5 to 90%RH (No dew condensation)

Storage condition:

Power failure protection:

Setups and data are backed up by flash memory. Clock:Lithium battery backs up RAM

Insulation resistance:

Clock:Lithium battery backs up RAM (Minimum 5 years)
Secondary terminals and protective conductor terminals --- $20M\Omega$ or more at 500V DC Primary terminals and protective conductor terminals --- $20M\Omega$ or more at 500V DC Primary and secondary terminals --- $20M\Omega$ or more at 500V DC Primary terminals: power terminals (L,N), alarm output terminals:

Germinals
Secondary terminals: measuring input terminals, digital input terminals, communications terminals
Secondary terminals and protective conductor terminals --1 minute at 500V AC

Dielectric strength:

Primary terminals and protective conductor terminals --1 minute at 1500V AC
Primary and secondary terminals --- 1 minute at 2300V AC
Primary terminals:power terminals (L,N), alarm output

Secondary terminals: measuring input terminals, digital input terminals, communications terminals

Case assembly material:

Color:

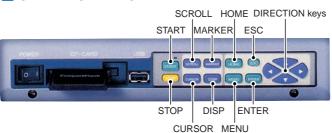

Front bezel --- ABS resin Case --- Steel Front bezel --- Black (equivalent to Munsell N3.0) Case --- Painting color, gray (equivalent to Munsell N7.0) Case --- Painting color, gray (equivalent to Mic Case --- Painting color, gray (equivaler 7.2kg Panel mounting Power terminals/protective conductor terminals/communications terminals --- M4.0

Weight: Mounting:

Terminal screws:

Measuring input terminals/alarm output terminals/digital input terminals --- M3.5

OPERATION KEYS

STANDARDS

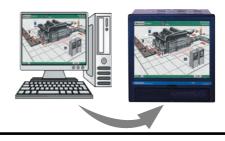

EMC directive --- EN61326-1 Class A EN61000-3-2

EN61000-3-2 EN61000-3-3 Low voltage directive --- EN61010-1 Over voltage (installation) categoryII, pollution level 2,

measuring category II Conformed to IEC60529 IP54 (recorder front bezel) Protection:

OPTION			
Options		Specifications	
Alarm output	Mechanical relay contact output for abnormal input and alarm activation Output: 24 points (a contact), 12 points (a contact, c contact), 6 points (c contact) Contact rating: Mechanical relay 100V AC 0.5A, 240V AC 0.2A, 30V DC 0.3A		
	High-order communications (RS232C)	Communications interface for high-order units Use for data acquisition, parameter setting and operation by a unit or PC connected to high-order RS232C (MODBUS) *Ethernet is standard equipped	
Communications interface	High-order /low-order communications (RS422A/RS485)	Communications interface for high-order and low-order units RS422A/RS485 (MODBUS) switchable Choose one from the following 2 types ●Communications interface for high-order units Use for data acquisition, parameter setting and operation by a unit or PC connected to high-order ●Recording of input data of CHINO products connected to low-order Parameter setting and recording/displaying of setting/measuring value of maximum 16 units of CHINO controllers Recording points: 12 points 108 points 24 points 96 points 36 points 84 points 48 points 84 points 48 points 72 points 12 points 72 points 48 points 72 points 49 points 49 points 40 points 4	
	ON/OFF signal	ON/OFF input recording	
Digital inputs	Pulse input	Maximum 10Hz pulse input Used for flow, operating time and frequency Input system:Photocoupler isolation (Common use for contact and pulse input) Built-in isolated power supply (approx. 5V) Input type: Non-power contact, open collector (TTL or transistor)	
	Remote contact	The following operations are available by contact input 8 points and common signal 4 points (Selectable by parameter). -Data memory triggering Start data recording by conductive signal from OFF to ON Data recording while conductive signal is ON -Marker display Registered makers display by conductive signal from OFF to ON -Integration operations Reset data for integration operations (all channels simultaneously)	
Custom Graphic Screen	By KR Screen Designer (optional), create graphic screen by PC and display to KR screen via CF card. KR measuring value can be located to the screen.		
Others	Handle and feet, point indication card		

KR SCREEN DESIGNER (sold separately) (NEW)

Model: KS3200-000 OS: Windows Vista/7/8 Others: Your OS recommended requirements or better

APPLICATION SOFTWARE ZAILA (sold separately)

The software is applied for replay display/wave editing operation of recorded data in KR3000 series. It has replay display of vertical/horizontal trend and circular trend function, and also analyzing function such as magnify/reduce/partially magnify of graphs and message insert.

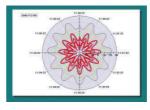

Display examples

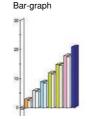

Trend display window (vertical flow)

Trend display window (horizontal flow)

Trend display window (circular trend)

Main functions

■Trend display

Selectable from trend display window (vertical flow, horizontal flow) and circular trend display window.

Continuous replay display window

Trend is scrolled continuously (automatically). Scroll changes by speed and renewal data no.

■Data list display window

Displays registered data as list display.

■Bar-graph

Displays by bar. Message can be inserted into bar-graph.

■ Data between markers

Displays date/time, time difference between 2 data, data difference, maximum, minimum, average, standard deviation and median among all data.

Alarm display

Points for alarm activation at each level are displayed on a trend graph.

Settings

Cursor, trend line, scale axis, time axis, title input on the graph, graph assistant and magnify/reduce/rotation of graphs

Data conversion

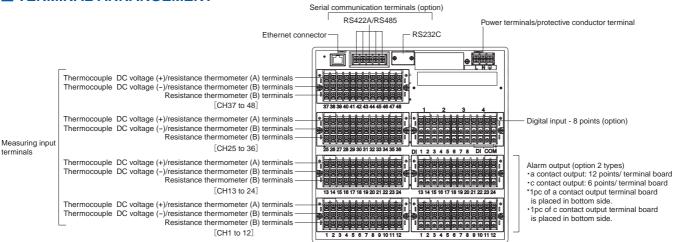

Exporting to Excel, and converting to CSV file or TEXT file are available.

ENVIRONMENT

CPU	Your OS recommended CPU and/or upper grade	
os	Windows VISTA / 7 / 8 *Internet Explorer 6.0 or later	
Others	Your OS recommended memory or larger	
Disk drive	CD-ROM drive: 1 drive or more Hard disk drive: Disk space of 1 drive or more for 100MB or more	
Language	Japanese, English, Chinese (simplified and traditional characters), Korean	

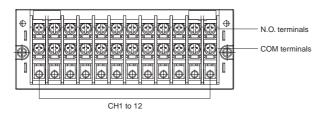

■ TERMINAL ARRANGEMENT

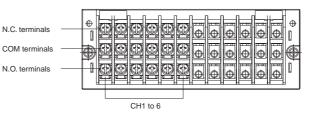

Alarm/Digital input terminals

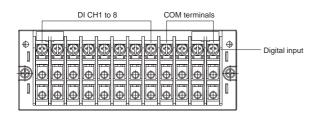

Alarm output (a contact output 12 points)

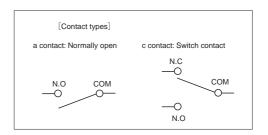

Alarm output (c contact output 6 points)

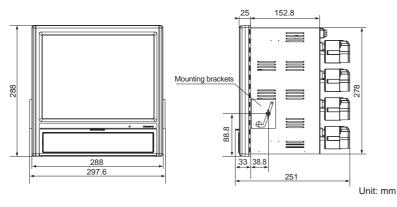

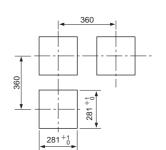

Digital input

DIMENSIONS

Panel cutout and minimum clearance

Unit: mm

Specifications subject to change without notice. Printed in Japan (I) 2017. 7
